SUE “Single Window Center” of the Customs Service under the Government of the Republic of Tajikistan

Speech by Mr. L. Faizullozoda, Director of SUE
“Single Window Center” of the Customs Service
at the meeting of the Coordinating Committee on
Trade Simplification on “Process of the Single
Window for Export, Import and Transit
Operations in the Republic of Tajikistan”

Dushanbe, Jan 5, 2021

CUSTOMS SERVICE OF THE GOVERNMENT OF THE REPUBLIC OF
TAJKISTAN

MEASURES TAKEN BY THE CUSTOMS SERVICE OF THE REPUBLIC OF TAJIKISTAN FOR ESTABLISHING AND DEVELOPING THE DIGITAL ECONOMY

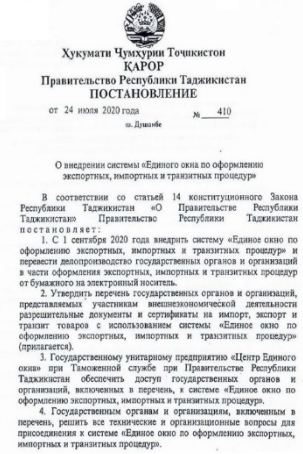

Dushanbe– 2021

Regulatory and legal framework for development of the *Single Window* system

- Concept of developing the *Single Window* system for processing the export, import and transit, approved by the Government Decree of the Republic of Tajikistan on December 31, 2008, No. 659.
- Program of implementation of the *Single Window* system for processing the export, import and transit, passed the Government Decree of the Republic of Tajikistan on May 3, 2010, No. 222.
- Resolution of the Government of the Republic of Tajikistan On the establishment of the State Unitary Enterprise “Single Window Center” dated December 3, 2010., No. 630

Regulatory and legal framework for development of the *Single Window* system

- Rules of information-based cooperation within “Single Window” passed by the Decree of the Government of the Republic of Tajikistan on September 2, 2010, No. 567.
- Law of the Republic of Tajikistan “On Amendments and Addenda to the Law of the Republic of Tajikistan “On the Licensing System” passed on July 4, 2020.
- Resolution of the Government of the Republic of Tajikistan “On introduction of the Single Window system for processing the export, import and transit procedures”, passed on July 24, 2020, No. 410.

Asian Development Bank contribution

In April 2013, the grant agreement was signed between the Republic of Tajikistan and the Asian Development Bank for the Improvement of Border Services Project, which is aimed at establishing and further developing the "Single Window" system and improving the performance of border customs points.

Furthermore, within the framework of this Project, the "UAIS" system was upgraded and the *Single Window* system for processing of export, import and transit procedures was integrated and developed.

PILOT PERIOD OF IMPLEMENTATION OF THE SYSTEM

After completion of the system development process and its testing by users, in November 2019, the pilot stage of the implementation of the *Single Window* system was launched with participation of all stakeholders.

During this period, users, along with the traditional paper document flow at that time, were sending their requests through the system. At the same time, while actively identifying and correcting existing shortcomings in the business processes of the involved agencies and feedback of the private sector organizations, jointly with the software developer, special attention was paid to training of the prospective users.

AGENCIES INVOLVED IN THE SINGLE WINDOW SYSTEM FOR PROCESSING OF EXPORT, IMPORT AND TRANSIT PROCEDURES

OPERATING PRINCIPLE OF THE SINGLE WINDOW SYSTEM

➤ Allows foreign traders to send all import and export information required by regulatory authorities in a single form only once, and to obtain up to 22 permits and certificates in electronic form through the same channel.

The system automatically considers the permit document issued in the event the timeline for review of the subject's application exceeds the timeline established by law.

OPERATING PRINCIPLE OF THE SINGLE WINDOW SYSTEM

- 63 points for reviewing requests of the traders and for issuing permits are connected to the system throughout the country.
- Possibility to pay for the services of the Single Window Center via e-wallet.
- Automatic identification of the User status through the system of the Tax Committee
- Automatic conversion of foreign currency to the national currency for the purpose of financial liabilities.

ELECTRONIC DATA EXCHANGE

The "Single Window" system is integrated with the following operating systems of the Republic:

- Tax Committee of the Government of the Republic of Tajikistan
- Central Bank of Tajikistan
- Alif Sarmoya Bank, and
- Unified automated information system of the Customs Service.

BENEFITS OF SINGLE WINDOW SYSTEM IMPLEMENTATION

- Reduced costs, time and effort of both, the service providers and the users.
- Strengthened coordination and cooperation between government agencies involved in the system.
- Improved efficiency of trade procedures and minimized administrative burden for the traders
- Simplified and improved interaction of the private sector with public authorities.
